

5-Day CII Certified Lead Auditor Training on Environmental, Occupational Health & Safety (EHS) Management Systems

As per ISO 14001:2004 and OHSAS 18001:2007

Environment Health and Safety Management System

Environment, Health & Safety is vital components of every business. Emerging issues like, work place hazards, climate change, hazardous and solid waste management and escalating cost of energy threaten the business sustainability like never before. In India at least 40,000 workers die every year at work and millions get exposed to hazardous working conditions. Despite a plethora of laws and regulations being enacted, there is a lack of a proper understanding and stringent implementation of these regulations.

For filling these gaps, the CII-ITC Centre of Excellence for Sustainable Development is conducting a CII certified integrated **Environmental, Occupational Health and Safety Management Systems (EHSMS) Lead Auditors Course** designed to provide both technical knowledge and practical skills essential for an EHS auditor to carry out EHS audits. The programme also touches upon EHS regulatory requirements and subsequently helps participants in strengthening their compliance system.

OBJECTIVES OF TRAINING

The main objectives of the training are to:

- Provide basic knowledge on assessing and improving the environmental performance, work safety and health in the workplace
- Develop practical skills with respect to implementation and auditing of EHS management systems in Indian workplaces
- Train the members as Lead Auditors for Environmental, Occupational Health and Safety Management as per guidelines of ISO 19011:2011
- Enable trained professionals to effectively manage the environmental, occupational health & safety issues of their organizations
- Enable participants to assess their organizations' current compliance with EHS legal requirements

COURSE CONTENT

The major elements of the course providing both knowledge and practical skills essential to an EHS auditor are:

- EHSMS Basics
- Introduction to the ISO 14001 & OHSAS 18001
- Implementing EHSMS as per ISO 14001:2004 & OHSAS 18001:2007
- Introduction to EHS Management System Auditing
- EHSMS Planning Techniques
- Auditors Qualifications - ISO 19011: 2011 & EHS Auditing Principles as per ISO 19011:2011
- EHSMS Requirements: The "Plan- Do-Check-Act" Elements of the PDCA Cycle
- EHS Legislation in India

ABOUT US

The CII-ITC Centre of Excellence for Sustainable Development, a pioneering effort by the Confederation of Indian Industry (CII), works to create a conducive, enabling climate for Indian businesses to pursue sustainability goals. The Centre promotes awareness, encourages thought leadership and builds capacity to achieve sustainability across a broad spectrum of issues.

WHO SHOULD PARTICIPATE
