

Certified Training on Guidance on Social Responsibility as per ISO 26000

Three-day training programme

About Us

The CII-ITC Centre of Excellence for Sustainable Development, a pioneering effort by the Confederation of Indian Industry (CII), works to create a conducive, enabling climate for Indian businesses to pursue sustainability goals. The Centre promotes awareness, encourages thought leadership and builds capacity to achieve sustainability across a broad spectrum of issues.

Organizations around the world, and their stakeholders, are becoming increasingly aware of the need for and benefits of socially responsible behaviour. An organization's performance in relation to the society in which it operates and to its impacts on the environment has become a critical part of measuring its overall performance and its ability to continue operating effectively. The objective of social responsibility is to contribute to sustainable development.

The International Standard ISO 26000 provides guidance on understanding, implementing and continuously improving the social responsibility of organizations, which is understood as the impacts of an organization's actions on society and the environment. The ISO 26000 standard is expected to set the norm for Social Responsibility in the time to come.

Picking up the latest developments regarding the social responsibility of organizations, the ISO 26000 Guidance on Social Responsibility Training familiarizes participants with the conceptual and practical guidance ISO 26000 provides to organizations for integrating social responsibility in their practices. Participants of this training will receive an CII-Certificate of participation for the course, issued with an ISO logo. The training is conducted by CII CESD in collaboration with The CSR Company of Vienna, Austria.

Objectives of the Training

The main objectives of the training are to:

- Provide an understanding of the concept, principles and core subjects of Social Responsibility to enable participants to assess their own organisation against the benchmarks of ISO 26000
- Familiarize with ISO 26000 guidance for integrating social responsibility into core of an organization's business strategy and prepare companies in developing a sustainability management framework
- Acquaintance with CSR Toolkit and other tools for development and effective implementation SR practices within an organization.

Topics Covered

1	Understanding Social Responsibility
2	Social Responsibility Principles and core subjects of Social Responsibility
3	Developing and implementing a sustainability management system and programs <ul style="list-style-type: none">• Corporate Social Responsibility Policy, Governance and Human Resource Management• Ethics, Transparency and Stakeholder Engagement• Monitoring, measuring, reporting and communicating on Corporate Social Responsibility Program
4	Toolkit for Corporate Social Responsibility and Social Responsibility

Who Should Participate?

The standard is intended to be useful to large and small organizations in the private, public and non profit sectors, operating in both developed or developing countries. All core subjects mentioned in ISO 26000 are relevant to every organization, while certain other subjects will matter to only specific types of industries and organizations. Therefore the programme targets all organizations interested in integrating sustainability into their business operations and enhancing their social and environmental responsibility as well as consultants and auditors working in this field.

Participation Fees

ISO 26000 Open Training:

Rs. 21,000/- (Rs. twenty one thousand) +
service tax (as per GoI rules) per participant
