

IICA Certified Training on National Framework for Business Responsibility Reporting

CII - ITC Centre of Excellence for Sustainable Development conducts a two-day training course on “The National Framework on Business Responsibility” in collaboration with IICA. The significance of reporting has become more widespread among corporations as more organizations are facing demand from their stakeholders to be transparent and inform them of their sustainability practice.

BENEFITS

- Familiarize the participants with reporting tool which is easy, practical and single-format reporting framework
- Identify some of the best practices that can serve as guidance models through disclosure framework
- Enable the professionals to develop a better understanding of the process of transformation that shall make operations more responsible.

The framework is based on the 'Apply-or-Explain' principle enabling measure that will encourages companies to disclose the current status of sustainability driven performance by undertaking a process of review to identify and manage sustainability gaps and risks in line with the future outlook of the company.

This training programme covers topics essential to EHS management system such as:

- Analyse the context and drivers for business responsibility reporting
- Articulate the benefits and challenges of reporting
- Benchmark business responsibility reports against best practice
- Connect the framework to your organization
- Develop or enhance your own organization's report
- Identify, prioritize and engage stakeholders
- Implement the key stages involved in preparing a report

Who should attend?

- Senior & Middle management from CSR, Production, Quality, Environment, Health and Safety, Human Resource, Corporate communications, Finance, Public Relations, Marketing, Corporate planning, Compliance officer, Company secretary
- Independent Consultants

IICA certified Certificate shall be provided to the participants on successful completion of the two day training course.
