1.2		Reduce energy consumption
1.3		Reduce water consumption
1.4		Reduce resource consumption (excluding energy and water; including materials used)
1.5		Reduce packaging material
1.6		Reduce waste
1.7		Increase recycling
1.8		Increase use of renewable energy mix in total energy consumption
1.9		Reducing use of plastics in all forms
1.10		Carbon Sequestration
2		Target Value
2.1		Reduce operational GHG emissions
2.2		Reduce energy consumption
2.3		Reduce water consumption
2.4		Reduce resource consumption (excluding energy and water; including materials used)
2.5		Reduce packaging material
2.6		Reduce waste
2.7		Increase recycling
2.8		Increase use of renewable energy mix in total energy consumption
2.9		Reducing use of plastics in all forms
2.10		Carbon Sequestration
3		Target Year
3.1		Reduce operational GHG emissions
3.2		Reduce energy consumption
3.3		Reduce water consumption
3.4		Reduce resource consumption (excluding energy and water; including materials used)
3.5		Reduce packaging material
3.6		Reduce waste
3.7		Increase recycling
3.8		Increase use of renewable energy mix in total energy consumption
3.9		Reducing use of plastics in all forms
3.10		Carbon Sequestration
4		Base Year

4.1		Reduce operational GHG emissions
4.2		Reduce energy consumption
4.3		Reduce water consumption
4.4		Reduce resource consumption (excluding energy and water; including materials used)
4.5		Reduce packaging material
4.6		Reduce waste
4.7		Increase recycling
4.8		Increase use of renewable energy mix in total energy consumption
4.9		Reducing use of plastics in all forms
4.10		Carbon Sequestration
b		No, the organization has not set any environmental targets
c		No information available
d		Not applicable
		Please provide reasons for not applicable
EM 11	Leadership	Is the organization committed to sustainable sourcing/green procurement/biodegradable products?
a		Yes, the organization is committed to green sourcing
b		No formal commitment, but the organization prefers suppliers with responsible environmental practices
c		There is no such commitment or consideration
d		No information available
e		Not applicable
		Please provide reasons for not applicable
EM 12	Results	Please indicate renewable energy as a percentage of energy consumption.
a		Renewable energy as % of total energy consumption:
b		No information available
c		Not applicable
		Please provide reasons for not applicable
EM 13	Results	Is the energy data verified/assured/audited by a third party?
a		Yes, all the above data has been verified by (please specify name):
b		Yes, but only total energy consumption data has been verified by (please specify name):
c		Data is not verified by third party
d		The organization does not track energy consumption
e		No information available
f		Not applicable
		Please provide reasons for not applicable
EM 14	Results	What is the highest level of green building certification the organisation currently possesses for its buildings?
a		For new buildings:

1		LEED Platinum
2		IGBC Platinum
3		GRIHA 5-star
4		Any other rating
5		No building is a certified green building
b		For old buildings:
1		LEED Platinum
2		IGBC Platinum
3		GRIHA 5-star
4		Any other rating
5		No building is a certified green building
c		No information available
d		Not applicable

EM 23	Process	Please select the option that constitutes the procedures for assessing water risks to the organization.
a		Information available:
a		Water is integrated into a comprehensive, company-wide risk assessment process undertaken at the corporate level by corporate risk function in collaboration with the campus/facility
b		Water risks are assessed only at the corporate level integrating it with the companywide risk assessment process
c		Water risks are assessed only at each owned and leased facility level integrating it with other risk assessments
d		Water risks are assessed only at each owned and leased facility level independent of other corporate level risks
g		Water risks are not assessed
i		No information available
j		Not applicable
		Please provide reasons for not applicable
EM 24	Process	Is the organization exposed to water risks, either at present and/or in the future, which could lead to a substantive change in the business, operations, revenue, or expenditures?
a		Yes, direct operations and supply chain
b		Yes, supply chain only
c		Yes, direct operations only
d		No, the organization is not exposed to any water-related risks
e		No information available
f		Not applicable
		Please provide reasons for not applicable

EM 25	Results	Please indicate the specific water use data and targets for next 5 years.

b		The organization does not track water consumption.
c		No information available
d		Not applicable
		Please provide reasons for not applicable
EM 26	Process	Is the water data verified by a third party?
a		Yes
b		Data not verified by third party
c		The organization does not track water consumption
d		No information available
e		Not applicable
		Please provide reasons for not applicable
EM 27	Results	Please indicate recycled/reused water as a percentage of total water consumption.
a		Recycled/reused water as % of total water consumption:
b		No information available
c		Not applicable
		Please provide reasons for not applicable

EM 28	Process	Please mention waste disposal methods that were used by the organization in the past financial year and respective waste quantities:
a		Information available:
1		Landfill
2		Discharges to water
3		Recycled waste
4		Incinerated waste
5		Composted waste
6		Waste to Energy
7		other (please specify)
b		No information available

b		The organization does not track waste generated.
c		No information available
d		Not applicable
		Please provide reasons for not applicable
EM 30	Process	Is the waste data verified/assured/audited by a third party?
a		Yes
b		Data not verified by third party
c		The organization does not track waste generated
d		No information available
e		Not applicable
		Please provide reasons for not applicable
EM xx		Is the organisation aware of the applicable national and state-level plastic waste management regulations?
		Yes, aware of plastic waste management regulations
		No, not aware of plastic waste management regulations

		Plastic waste management regulations are not applicable to the organisation
EM xx	Leadership	What are the measures that organisation is taking to phase out/ban single use plastics (SUP)?
a		The organisation has taken measures to phase out/ban SUP
		1. Publicly committed to become SUP free
		2. Policies and Procedures in place for becoming SUP free
		3. Set yearly targets on phasing out SUP
		4. Works with suppliers to phase out SUP from value chain
b		The organisation has not taken measures to phase out/ban SUP
c		No information available
d		Not applicable
		Please provide reasons for not applicable
EM 31	Process	What is process to track non-compliance with applicable environment laws and regulatory permits in the organization?
a		Information available:
b		No information available
c		Not applicable
		Please provide reasons for not applicable
EM 32	results	Please provide total monetary value of significant environmental fines paid for an act of violation, omission, or negligence by which the community at large was affected due to pollution damage to land, water, and air.
a		Amount of environmental fines in past financial year (please provide absolute figures in INR):
b		No environmental fines paid
c		No information available
d		Not applicable
		Please provide reasons for not applicable
EM 33	results	Please indicate the percentage of cases resolved out of the total complaints on environmental impact in the past financial year.
a		Percentage of cases resolved:
b		No information available
c		Not applicable
		Please provide reasons for not applicable
EM 34	L&I	Please describe how the top management reviews the organization's environmental performance for its continual improvement and how the learnings are used to make further improvements?
a		Description provided:

b		No information available
c		Not applicable
		Please provide reasons for not applicable
EM 35	Results	Please provide a few initiatives taken by the organization (benefits and impact, quantified in terms of cost saving, or revenue generating) to:
a		Information available:
1		Reduce emissions/energy consumption
2		Reduce water use
3		Increase resource efficiency (excluding energy and water; including materials used, and packaging material)
4		Reduce waste (hazardous/non-hazardous)

5		Land restoration
b		No initiatives taken
c		No information available
d		Not applicable
		Please provide reasons for not applicable
EM 36	Key Resources	Please provide the total expenditure on environmental protection (please provide absolute figures in INR).
a		Information available:
1		Waste disposal, emissions treatment, and remediation costs
2		Prevention and environmental management costs
b		No information available
c		Not applicable
		Please provide reasons for not applicable
EM 37	Process	How does organisation demonstrate its commitment towards biodiversity management and conservation?
a		Information available
1		Leadership is committed and engaged in matters related to biodiversity
2		Biodiversity policy in place or Biodiversity is addressed in Environment policy
3		Governance system in place to address biodiversity
4		Resources (financial and human) invested in study, management, and conservation of biodiversity
b		No information available
c		Not applicable
		Please provide reasons for not applicable
EM 38	Results	Do the direct or indirect operations of the organisation fall near a biodiversity sensitive zone?
a		None of the direct or indirect operations of the organisation fall in biodiversity sensitive zone
b		The organisation has its direct or indirect operations in biodiversity sensitive zones
c		No information available
d		Not applicable
		Please provide reasons for not applicable
EM 39	Results	If any of the direct or indirect operations of your organisation lie near biodiversity sensitive zone, how is the organisation measuring its impact and what measures are taken to reduce the impact?

a		The organisation in no way impacts biodiversity in nearby areas while it has some/all facilities/operations/campuses in protected or biodiversity sensitive areas. (State reasons for no impacts)
b		Yes, the organisation has such impacts. However, the organisation study, quantifies and take mitigation measures for their direct and indirect impacts (mention some of those measures in text area)
c		Yes, the organisation has such impacts and takes adhoc measures to mitigate the impact (mention some of those measures in text area)
d		Yes, the organisation has such impacts
e		No information available
f		Not applicable
		Please provide reasons for not applicable
EM 40	Process	Consider the following and choose the option that best suits your organisation regarding study of biodiversity in and around the office premise.
a		Organisation periodically conducts baseline study of nearby areas for biodiversity. Such study includes study of flora & fauna, endangered & critical species, and ecosystem services
b		Organisation conducted a baseline study of biodiversity once before commencing operations in the area in concern
c		Organisation is considering performing such a baseline study of biodiversity
d		Organisation has never performed such a study and nor does it plan to do in the next 2 years
e		No information available
f		Not applicable
		Please provide reasons for not applicable
EM 41	Process	Does the organization's biodiversity and ecosystem services impact assessments cover organisation location and surrounding area? (For both owned and leased offices)
a		The organization conducts impact assessment on site and surrounding area (up to 10km)
b		The organization conducts impact assessment on site and surrounding area (less than 5 km)
c		The organization conducts impact assessment only at site
d		The organization has a specific plan to introduce a mechanism to conduct impact assessments considering biodiversity
e		No information available
f		Not applicable
		Please provide reasons for not applicable
EM 42	Results	Describe organisation's impacts and dependencies on biodiversity and ecosystem services from the undertaken assessment.
a		Information available:
b		No information available
c		Not applicable
		Please provide reasons for not applicable

EM 43	Results	Describe three biodiversity conservation & management initiatives undertaken by the organisation in the last five years.
a		Information available
b		No such initiatives undertaken
c		No information available
d		Not applicable
		Please provide reasons for not applicable
EM 44	Results	Are there any fines or penalties paid by the organisation against destruction of local biodiversity & ecosystem services? Please provide details
a		Yes, there are fines/penalties
		No, there are no fines/penalties
b		No information available
c		Not applicable
		Please provide reasons for not applicable
