for Sustainable Development

## ABOUT THE AWARD

The Award reflects the need for unity in this world. To sustain the environment, a broad-based alliance between industry and society is required globally. The CAP 2.0° Award is the first one in India to recognise Climate Action. The Award has been developed keeping in mind, maturity level of different industries to tackle climate change risks and opportunities.

In the last three years. More than 70 companies from different sectors including MSMEs have applied and 25 companies have been recognised.

Climate change poses potential risks and opportunities to business in the form of current and possible future greenhouse gas regulations and emissions trading systems, changing attitudes of investors and consumers, evolving product markets and actions taken by competitors. The physical effects of climate change with regard to changes in temperature and weather, water availability and other changes can affect business processes, fixed assets like buildings, and resource availability.

Business opportunities may also arise from management of the risks associated with climate change. Companies that identify and analyse emerging risks earlier than their peers will be better positioned to avoid or mitigate potential damages.

To help industry contract climate risk and exploit market opportunities and become climate resilient, CII instituted a Climate Action Programme CAP 2.0° to build capacity of industry and recognise best practices and innovation on climate action.

## Programme Key Differentiators

- Tangible Impact through cost reduction, due to reduction of GHG emissions at operations and the supply chain
- Practical roadmap of implementation and sector specific analysis
- Assessment done by independent CII trained Assessors
- A detailed feedback report which highlights their strengths and opportunities

## Benefits to Companies

- Better Investor and stakeholder relations, due to enhanced clarity on long term climate change strategy
- Identification of climate change risk and mitigation risk
- Access to capital providers
- Get prepared for disclosures to Global Climate Frameworks

# ELIGIBILITY CRITERIA

You can apply, if you are:

Operating in India, for  
At least three years

A Large, Medium, Small,  
Micro-sized Enterprise or  
an independent unit

Companies from the  
following sectors can apply

**Infrastructure**

**Light Manufacturing**

**Energy, Mining & Heavy  
Manufacturing**

**Services Sector**

**APPLY NOW!**

# ASSESSMENT METHODOLOGY

The Awards adhere to transparent and rigorous assessment process and follows a three-dimensional methodology. All the three elements have equal weightage to the assessment criteria.

**European Foundation  
for Quality Management  
(EFQM) Model**

Based on Enablers and Results  
looked overall from Learning &  
Review process

**Activity Model**

Based on the climate change  
Mitigation and Adaptation efforts  
of the company

**Climate Maturity Model**

Based on Commitment, Orientation  
and Pioneering efforts of the  
applicant to assess the preparedness  
for businesses proofing against  
climate change

The detailed questionnaire consists of over 100 questions, spanning specific sections including Governance & Leadership, Strategy, Targets, Risks & Opportunities and Disclosures

## Stage 1: Application

# CII-CERTIFIED CAP 2.0° ASSESSOR PROGRAMME

With the upcoming need of professionals with an understanding of climate action and the risks and opportunities associated with it, CII-CESD initiated this training program to build capacity in climate change and add to a pool of 50+ trained assessors for assessment for Climate Action Programme (CAP) 2.0°. The training enhances capacities and capabilities of the assessors on climate action, adaptation and mitigation. The Training also provides opportunity to participants to visit different companies and learn from their best practices. The training does not only create expertise in the field but is also aimed at creating a vast network of climate action professionals.

## TRAINING DATES

14<sup>th</sup>-17<sup>th</sup> February 2023

## Participation Fees

**INR 20,000/-** per participant + GST

Mail us for discount related details

## Benefits

- Be among the best in assessing climate related impacts and solutions to deal with climate change
- Enhance capacities and capabilities on climate action, adaptation and mitigation
- Gain practical experience and assess a company on climate action
- Receive a CII certificate which is valid for three years

## Eligibility Criteria

- Applications are open to industry professionals, with experience of 9 years or more in the field of climate change adaptation and mitigation projects
- Educational background of environment, engineering, science or others related fields
- Preference will be given to professionals with experience in energy, environment and climate change

## How to Apply

Interested professionals should send in their CV [cap2.0@cii.in](mailto:cap2.0@cii.in)
