ABOUT THE SESSION

ESG integration in decision making and business processes play a vital part for any organization's sustainability. ESG is a key driver for long-term value creation and securing investments. Investing in ESG leads to positive impacts and brand improvement.

Currently, an accelerated shift has been observed towards ESG due to mandates from regulatory bodies and push from investors. Besides the competition with peer companies, there is also a push from customers, employees and other stakeholders. This is leading the organizations on pathway to integrate ESG in decision making.

Monitoring and publishing the ESG performance have led to direct profitability, gaining stakeholder trust, enhanced operational performance, improved due diligence practices etc. Governance of any organization is the core for laying foundation for ESG, setting roles and responsibilities and also deciding goals.

Considering the above thought CII-ITC CESD is organizing a session to guide the corporate leaders for an easy ESG Transition and also discuss the global trends, practices and compliances. Objectives of the session:

WHY ATTEND?

- Orientation on evolving global ESG regulations.
- Understand the investor perspective of risks associated with the organizations.
- Prepare for ESG strategy and ESG Transition
- Lead ESG with Governance insights
- Be aware on ESG best practices.

WHO SHOULD ATTEND?

The session can be attended by CXOs (CEO, Functional Heads, Head of Department etc.), and Board Members.

PRICE: Rs. 18,000 per participant + GST
