BUILDING CLIMATE RESILIENCE IN INDIAN BUSINESSES

CAP2.0

CLIMATE ACTION PROGRAMME

5th EDITION

ABOUT THE AWARD

The Award reflects the need for unity in this world. To sustain the environment, a broad-based alliance between industry and society is required globally. The CAP 2.0° Award is the first one in India to recognise Climate Action. The Award has been developed keeping in mind, maturity level of different industries to tackle climate change risks and opportunities.

In the last four years more than 90 companies from different sectors including MSMEs have applied and 40 companies have been recognised.

Climate change poses potential risks and opportunities to business in the form of current and possible future greenhouse gas regulations and emissions trading systems, changing attitudes of investors and consumers, evolving product markets and actions taken by competitors. The physical effects of climate change with regard to changes in temperature and weather, water availability and other changes can affect business processes, fixed assets like buildings, and resource availability.

Business opportunities may also arise from management of the risks associated with climate change. Companies that identify and analyse emerging risks earlier than their peers will be better positioned to avoid or mitigate potential damages.

To help industry contract climate risk and exploit market opportunities, become climate resilient and chart a course towards net zero. CII instituted a Climate Action Programme (CAP) 2.0° to build capacity of industry and recognise best practices and innovation on climate action.

Programme Key Differentiators

- Tangible Impact through cost reduction, due to reduction of GHG emissions at operations and the supply chain
- Practical roadmap of implementation and sector specific analysis
- Assessment done by independent CII trained Assessors
- A detailed feedback report which highlights their strengths and opportunities

Benefits to Companies

- Better Investor and stakeholder relations
- Gain competitive advantage to adapt to climate change
- Better prepared to mitigate future risks associated with climate change
- Get prepared as per disclosures of global climate frameworks
- Establish leadership position as a Climate Action Champion

ELIGIBILITY CRITERIA

You can apply, if you are:

Operating in India, for
At least three years

A Large, Medium, Small,
Micro-sized Enterprise or
an independent unit

Companies from the
following sectors can apply

Infrastructure

Light Manufacturing

**Energy, Mining & Heavy
Manufacturing**

Services Sector

Last date to apply
26th February 2024

APPLY NOW!

ASSESSMENT METHODOLOGY

The Awards adhere to transparent and rigorous assessment process and follows a three-dimensional methodology. All the three elements have equal weightage to the assessment criteria.

**European Foundation
for Quality Management
(EFQM) Model**

Based on enablers and results
looked overall from learning &
review process

Activity Model

Based on the climate change
mitigation and adaptation efforts
of the company

Climate Maturity Model

Based on commitment, orientation
and pioneering efforts of the
applicant to assess the preparedness
for businesses proofing against
climate change

The detailed questionnaire consists of about 100 questions, spanning specific sections including Governance & Leadership, Strategy, Targets, Risks & Opportunities and Disclosures

Stage 1: Application

- Receiving Expression of Interest (EOI)
- Receiving filled online application from the applicant
- Preliminary screening of all the applications

Stage 2: Desk assessment

- Desk assessment by trained CII CAP 2.0° assessors
- Consensus on assessment results by assessment team
- Feedback reports to applicants who could not qualify for site assessment

Stage 3: Site assessment

- Assessment by the same team of assessors
- Revised consensus by assessment team

Stage 4: Awards presentation

- Announcement of winners
- Feedback reports to applicants

IMPORTANT DATES

Expression of Interest
26th February 2024

Last date for submission
of filled questionnaire
15th April 2024

CII-CERTIFIED CAP 2.0° ASSESSOR PROGRAMME

With the upcoming need of professionals with an understanding of climate action and the risks and opportunities associated with it, CII-CESD initiated this training program to build capacity in climate change and add to a pool of 60+ trained assessors for assessment for Climate Action Programme (CAP) 2.0°. The training enhances capacities and capabilities of the assessors on climate action, adaptation and mitigation. The Training also provides opportunity to participants to visit different companies and learn from their best practices. The training does not only create expertise in the field but is also aimed at creating a vast network of climate action professionals.

TRAINING DATES

28th February - 1st March 2024

Participation Fees

INR 22,000/- per participant + GST

Mail us for discount related details

Benefits

- Be among the best in assessing climate related impacts and solutions to deal with climate change
- Enhance capacities and capabilities on climate action, adaptation and mitigation
- Gain practical experience and assess a company on climate action
- Receive a CII certificate which is valid for three years

Eligibility Criteria

- Applications are open to industry professionals, with experience of 10 years or more in the field of climate change adaptation and mitigation projects
- Educational background of environment, engineering, science or others related fields
- Preference will be given to professionals with experience in energy, environment and climate change

How to Apply

Interested professionals should send in their CV cap2.0@cii.in
