

In September, the Eco Edge Round Table Discussion brought together industry leaders from esteemed companies, including [Škoda Auto Volkswagen India Private Limited](#) (SAVIPL), [Cummins India](#), [Tata Motors](#), [Asian Paints](#), [Hindustan Zinc](#) Ltd., and [Ashok Leyland](#), for an engaging and insightful dialogue.

Mr. [Sanjay Khare](#), Vice President-Sustainability Strategy at SAVIPL, graced the event with his presence and shared invaluable insights and experiences derived from their collaboration with [Eco Edge- Integrating Sustainability in Value Chains of Companies](#). SAVIPL's journey provided a shining example of how proactive sustainability strategies can be integrated into the very fabric of an organization.

One of the key takeaways was SAVIPL's successful approach to identifying potential value chain partners from their extensive database of suppliers and vendors. Their experience served as a blueprint for businesses seeking to embark on a similar sustainability journey.

Discussions revolved around strategies for selecting relevant vendors and meeting evolving regulatory requirements, reflecting the commitment of these organizations to not only adapt but also lead in a rapidly changing business landscape.

This round table was a testament to the power of collaboration and knowledge sharing within the sustainability and ESG space.

As we look back on this enriching experience, we are excited about the possibilities that lie ahead. Stay tuned for more impactful discussions and initiatives from Eco Edge as we continue to drive sustainability and corporate responsibility forward. Learn more: <https://lnkd.in/dJMavkMb>
